Barter explained that FY26 actuals appeared low because of significant vacancies; the FY27 budget reflects full staffing, cost-of-living and merit increases, retirement cost increases, and two added positions (Engineering Technician and Finance Project Specialist). Updated FTE estimates are being revalidated.

Board members raised questions regarding personnel growth, prevention of “staffing creep,” and controls over seasonal and hourly labor. Public Works Director Kate Nelson and Director of Community Services Mike Bandelin outlined new scheduling oversight, overtime restrictions, and improved payroll tracking tools. HR Director Eric Milavsky clarified updates to staffing lists and forthcoming corrections to avoid duplication.

Director of Finance Barter provided a review of major operating cost changes across all funds, including increases in chemical and fuel costs for utilities, food and beverage cost adjustments, reallocation of fleet and building maintenance, and updated liability allocations. Several line-item anomalies (e.g., Recreation Fund liability allocation) will be corrected before final adoption.

She also reported changes to the Central Services Cost Allocation methodology. Current calculations deviate from existing policy but reduce charges district wide. Staff recommended updating the policy for consistency; the Board requested that this be placed on the next meeting agenda.

Posting requirements for revised budget materials will be reviewed by the Chair and legal counsel, with supplemental updates expected prior to final adoption.

Conclusion:

Discussion completed. Director of Finance Noemi Barter and staff will provide corrected allocations, updated FTE figures, and supplemental materials for the next meeting. Item E2 closed.
